RE: Recommendation letter for Irene Erica Panayidou

Dear Sir/Madam,

It is with great pleasure that I write this letter of recommendation for Ms. Irene Erica Panayidou. I met Irene as a student at Frederick University. Irene took a number of courses with me during her studies and I was also the supervisor for her final year project. Irene has worked closely with me on the development of the Autonomous Surface Vehicle – ERON (HPQN). Based on this work, she was able to co-publish with me two scientific articles (one at a journal and one at a conference) and she was appointed as the Laboratory Manager of RasLab for the last two years of her studies at Frederick University.

I found that Irene is a person with high sense of responsibility that really cares about the quality of her work. She is methodical, reliable, responsible and with love for what she does. Our frequent collaboration allows me to conclude that she has a thorough understanding of her area of study, works hard, is consistent, is willing to learn, is cooperative, has initiative, high administrative skills and high morals. On top of that, Irene has a very pleasant personality, works well with the group, is adaptable and cooperative. I definitely rank her among the best students I had in all my years of teaching.

Knowing Irene and her work, I can highly recommend her for employment at your organization. Please feel free to contact me regarding the contents of this letter. My email is g.demetriou@frederick.ac.cy and my telephone is +35725730975.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Giorgos A. Demetriou'.
